PROGRAM INFORMATION

Artist in Schools offers Saskatchewan K-12 students enhanced arts-related activities that are directly linked to cross-curricular and cross-cultural educational outcomes through collaborative inquiry-based processes with professional artists. Partnerships are established between the school and professional artists or arts professionals, and activities are supported in forms of projects and residencies. Projects and residencies that come out of strong partnerships between the school and artist, that are developed, and that have well-planned objectives have higher success rates.

PROGRAM PURPOSE

Artists in Schools – Development provides small amounts of funding to schools and/or professional artists or arts professionals to build relationships with potential partners, develop projects or residencies, and/or research school or community needs.

Partnerships between artists or arts professionals and schools do not have to be established to be eligible to apply for the Development stream.

GRANT AMOUNT

Schools, professional artists or arts professionals can apply for up to \$1,000 to support eligible expenses, and an additional amount related to artist travel if necessary. Travel must be limited to within Saskatchewan and is intended for Saskatchewan artists only.

Applicants cannot receive funding from this program more than once in any 12-month period.

Applicants can only apply unsuccessfully a maximum of twice in any 12-month period.

Funding for the Development stream is allocated each fiscal year (April 1 – March 31) and is assigned quarterly. Applications are accepted leading up to and including the 10th of March, June, September, and December, with results announced within four weeks of each closing date.
